

Workshop of the EAPS Health, Morbidity and Mortality Working Group

**“Changing patterns of mortality and morbidity:
age-, time-, cause- and cohort-perspectives”**

Prague, 16.–18. September 2015

LIST OF POSTERS

- 1. Mortality and Morbidity: The Edu- Environmental nexus in emerging patterns of health seeking behavior in Kenya’s Kericho County (Pamela Wadende, Victor Musoga)**
- 2. Evolution of cardiovascular mortality in Russia (Tamara Sabgayda, Victoria Semyonova)**
- 3. Birth cohort differences in alcohol-attributable mortality in Europe (Sergi Trias-Llimós, Maarten J. Bijlsma, Fanny Janssen)**
- 4. Past trends of obesity attributable mortality in the Netherlands; an application of Age- Period-Cohort Analysis (Nikoletta Vidra, Maarten J. Bijlsma, Fanny Janssen)**
- 5. Seasonal pattern of mortality by main cause of death in Novi Sad (Serbia), 1998–2013 (Daniela Arsenović)**
- 6. Comparison of mortality attributable to overweight and obesity in Argentina and Chile in the early 21st century (Laura Acosta, Enrique Peláez)**
- 7. Low American life expectancy 1970–2009: Insights from a new contour decomposition method (Alyson van Raalte, Vladimir M. Shkolnikov)**
- 8. Trends in mortality and morbidity and the effects of smoking and obesity (Marjanne Plasmans)**
- 9. Socioeconomic Inequalities in Mortality of the Population of Large Czech Towns – Spatio-Temporal Perspective (Ladislav Kázmér)**
- 10. Period and/or cohort mortality trends in the Czech Republic with the use of APC analysis (Jindra Reissigová, Jitka Rychtaříková)**
- 11. Life expectancy divergence and its components across developed countries (Sergey Timonin, Vladimir M. Shkolnikov, Domantas Jasilionis, Pavel Grigoriev, David A. Leon)**
- 12. Cohort mortality from smoking-, alcohol- and diet-related causes in Hungary based on estimated cause-specific data (Katalin Kovács)**

- 13. Understanding the impact of fertility history on health outcomes in later life (Lee Williamson, Chris Dibben)**
- 14. Using the Scottish Indicator of Relative Need (IoRN) as a framework to explore the relationship between care needs and patterns of received care in later life using the English Longitudinal Study of Ageing (Waves 1 to 4) (Robert Sanders)**
- 15. Biological Anthropology and Health Issues: exploring the influence of sex and country of origin in the health status of particular collectives such as immigrants and children with severe health conditions (Maria Esther Esteban Torné, Olga Hladun, Esther Bujaldon, Mireia Esparza, Elisabeth Esteban)**
- 16. Different approaches of selecting the underlying causes of death across Russian regions (Inna Danilova, Dmitri Jdanov, Vladimir M. Shkolnikov)**
- 17. Urbanicity and the cross-over in underweight and overweight in India (Shivani A. Patel, Solveig A. Cunningham, K.M. Venkat Narayan)**
- 18. Double Burden of Thinness and Overweight in Children under 5: An evaluation of the Middle East/North African Region (Rebecca E. Jones, Solveig A. Cunningham)**
- 19. Gender differentials in self-rated health and self-reported disability among adults in India (Jayanta Kumar Bora, Nandita Saikia)**
- 20. Short-term effects on mortality of hot and cold weather in Sweden 1901–2009 (Daniel Oudin Åström, Bertil Forsberg, Sören Edvinsson, Joacim Rocklöv)**
